

Ejemplos de ejecución

Sin  
o con rascador

SP

The diagram illustrates three methods of door frame installation. Each method is shown in a perspective view and a corresponding cross-section callout. The first two methods, square and octagonal frames, are marked with a red asterisk, indicating they require a scraper. The third method, a round frame, is shown without a scraper. A vertical line on the far right is labeled 'SP'.

This image shows a full page of blank graph paper. The grid consists of small, uniform squares formed by thin, light gray lines. There are no margins, text, or other markings on the page.
